Faridabad, Haryana | 6392936906 | gaurav2489tiwari@gmail.com | [LinkedIn](#) | [GitHub](#)

Summary

B.Tech Information Technology graduate (2026) with hands-on experience building full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in developing RESTful APIs, implementing JWT-based authentication, and integrating payment gateways. Built and deployed 2 production-ready full-stack applications with live demos. Seeking an entry-level MERN Stack Developer / Software Developer role to contribute technical skills and problem-solving ability to a fast-paced engineering team.

Skills

Languages: C, C++, Python, JavaScript, SQL

Frontend Development: HTML, CSS, React.js, Tailwind CSS, React Router, Context API, Axios, Responsive Design

Backend Development: Node.js, Express.js, REST API Design, JWT Authentication

Database Management: MongoDB, Mongoose, MongoDB Atlas, MySQL

Tools and Platforms: Git, GitHub, Postman, VS Code, Vite, Vercel

Payment Integration: Stripe API

Core CS Subjects: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Projects

ZestyGo – Full-Stack Food Delivery Application | MERN Stack, Stripe API

Live Demo: <https://food-delivery-two-black.vercel.app> | GitHub: <https://github.com/GauravTiwari187/Food-Delivery>

- Architected a full-stack food delivery platform with 3 separate modules: customer, admin, and backend, supporting end-to-end order management
- Implemented secure user authentication and authorization using JWT, protecting user and admin routes
- Built shopping cart and order placement workflow using React.js, improving customer checkout experience
- Developed an admin panel using React and Vite for managing food items, categories, orders, and image uploads
- Integrated Stripe payment gateway to enable secure online transactions
- Designed REST APIs to connect frontend and backend, using MongoDB Atlas for persistent data storage
- Deployed the complete application on Vercel for public access

NutriGym – Fitness Website | MERN Stack, Tailwind CSS

Live Demo: <https://nutri-gym-alpha.vercel.app> | GitHub: <https://github.com/GauravTiwari187/NutriGym>

- Built a full-stack fitness web application to manage user profiles, diet plans, and workout recommendations
- Designed a responsive, mobile-first UI using React.js and Tailwind CSS with reusable component architecture
- Developed RESTful APIs with Express.js and Node.js to handle user data, authentication, and content delivery
- Integrated MongoDB for secure storage of user profiles, diet charts, and consultation history
- Implemented client-side form validation and routing to improve app maintainability and user experience

Work Experience

Python Programming Trainee

Samsung Innovation Campus

1 Month

- Completed a structured Python programming training program covering data types, loops, functions, file handling, and object-oriented programming, with hands-on mini-projects
- Earned a Coding and Programming Certification upon successful completion

Summer Vocational Trainee

Signal and Telecom Training Center, North Eastern Railway

- Gained exposure to railway signaling and telecommunication systems, including installation, maintenance, and troubleshooting procedures
- Followed safety protocols while working on live signaling infrastructure, developing discipline in process-driven technical environments

Education

Deen Dayal Upadhyaya Gorakhpur University

2022 – 2026

Bachelor of Technology in Information Technology | CGPA: 7.6/10

Central Academy Sr. Sec. School

2020 – 2021

Intermediate, CBSE Board

Central Academy Sr. Sec. School

2018 – 2019

High School, CBSE Board

Certifications

- Coding and Programming Certification, Samsung Innovation Campus
- Cloud Computing Certification, NPTEL, Qualified
- Summer Vocational Training Certificate, Signal and Telecom Training Center, North Eastern Railway
